

## IMPLEMENTATION SUPPORT:

Help with setting up your Quality Management System  
**Benefits of having a documented Quality Management System, include:**

PLANNING

Provides for better overall management of the organization and facilitates business succession

DOING

Benefit of improved margins due to operating efficiencies and greater access to some markets

CHECKING

Can achieve a competitive advantage through value-adding third-party audits by a Registrar

ACTING

Accountability from all staff for their assigned duties and responsibilities

## PRICING: (Organizations with less the 10 employees)

- **50 man-hour package - \$75.00 /hr** flat rate (*HST added to all prices*)
  - We assist a company appointed Quality Management Representative in taking responsibility for implementing and managing the QMS
  - Includes all travel and communication with the client to carry out these activities

## What is included:

- Provide Quality Management System (QMS) implementation support for up to 15 man hours or four (4) months, whichever comes first;
- Conduct one internal audit of the QMS within 3 months of implementation (7.5 man-hours);
- Provide Audit Report detailing non-conformances identified during the internal audit (7.5 man-hours);
- Assist with development of acceptable Corrective / Preventive Actions for non-conformances reported during internal audit (7.5 man-hours);
- Liaise with the Mgmt Rep or Registrar's auditor during certification audit (7.5 man-hours);
- Assist with the development of Corrective / Preventive Actions in response to the Registrar's findings (up to 5.0 man-hours).

## Why Choose Us?

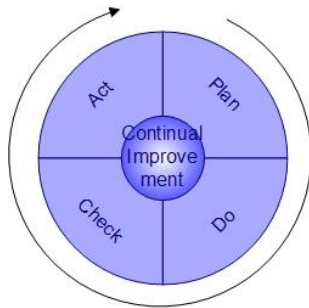

- We offer **fixed-price contracts** and flexible hours of work, convenient to the Customer;
- Several successful completions (with references);
- Providing affordable and professional services (**compare** at up to \$1200.00 / a day +).

## What does the Implementation Package consists of?

- Provide guidance on interpretation of Quality Manual or Company Procedures;
- Conduct internal audit and prepare audit report;
- Assist with the development of acceptable Corrective / Preventive actions;
- Available to provide explanations, during the certification audit.
