IMPLEMENTATION SUPPORT - 60: Help with setting up your Quality Management System (QMS)
Benefits of having a documented Quality Management System, include:

PLANNING — Provides for better overall management of the organization and facilitates business succession

DOING — Benefit of improved margins due to operating efficiencies and greater access to some markets

CHECKING — Can achieve a competitive advantage through value-adding third-party audits by a Registrar

ACTING — Accountability from all staff for their assigned duties and responsibilities

PRICING: > 10 employees

- **60 man-hour package - $79.00 /hr** flat rate (*HST added to all prices*)
  - We assist a company appointed Quality Management Representative, or team, in taking responsibility for implementing and managing the QMS
  - Includes all travel and communication with the client to carry out these activities

What is included:

- Provide Quality Management System (QMS) implementation support for up to 60 man hours or four (4) months, whichever comes first; *(includes review of current documents)*
- Conduct "Needs Assessment" from Preliminary Gap Assessment;
- Awareness presentation on ISO 9001: 2015;
- Overview on Risk-Based Thinking;
- Revisit Plan-Do-Check-Act methodology per ISO 9001: 2015;
- Facilitate SWOT Analysis "Strengths Weaknesses Opportunities Threats" and identification of interested parties and their requirements;
- Conduct internal audit after implementation of QMS requirements (ISO 9001: 2015);
- Facilitate Management Review (if necessary);
- Assist with Corrective Actions after Registrar's Audit (Stage 1 & 2), as required.

Why Choose Us?

- We offer **fixed-price contracts** and flexible hours of work, convenient to the Customer;
- 100 % customer satisfaction (with references);
- Providing affordable and professional services (**compare** at up to $1200.00 / a day +).

What does the Implementation support package consists of?

- Provide guidance on interpretation of the standard, or the documented information;
- Provide guidance in meeting the Registrar's certification requirements;
- Available to provide explanations during implementation of the QMS.
